

# VIEWpath®

VIEWpath (Video Interactive Education Window)® is an innovative classroom video platform designed to streamline content creation and delivery. Teachers can record, store, and deliver their same high-quality instruction to students inside and outside the classroom, empowering teachers to easily contribute to modeling, mentoring, and coaching.

## BENEFITS OF THE VIEWpath SYSTEM

### CONTENT DISTRIBUTION

Live stream to remote learners and download recordings for offline delivery.

### LECTURE CAPTURE

Capture recording and desktop side by side, while capturing classroom audio.

### TEACHER CONTROLLED

Camera is teacher operated allowing teachers to manage recordings.

### RECORD OPTIONS

Schedule in advance or press *REC* button on the teacher microphone.

## VIEWpath HIGHLIGHTS

### EduCam360®

The EduCam360 is a 4K camera that offers multiple recording views, providing coverage of the entire classroom for reviewing student engagement.

### EduCamPTZ

The EduCamPTZ easily broadcasts and captures lessons with a 31x optical zoom, capture and share the smallest classroom details.

### UPLOAD TO PREFERRED LMS

VIEWpath offers options for sharing. Download video files or use embed codes to add recordings to Microsoft OneDrive, Google Classroom, Canvas, or preferred LMS.

**94%** of educators agree that watching their videos helps them identify their development areas

**88%** of educators report that watching videos of recorded lessons changes their practice

Making a difference in education since 1978
